Why 10YFP Programmes are important?

Programmes will serve as “umbrellas” that bring together existing and/or develop new initiatives and partnerships to fill capacity & knowledge “gaps”.

They will build synergies and cooperation between stakeholders, and allow scaling up and replication of policies, voluntary measures, management practices, and partnerships promoting the shift to SCP patterns, engaging governments, business, civil society, consumers and other major groups.

Programmes are expected to deliver capacity building and technical support as necessary at all levels: regional, sub-regional, national and local.
“A flexible, **initial and non-exhaustive** list... this indicative list builds on the experience gained through the Marrakech Process and regional SCP strategies....”

- Sustainable tourism, including ecotourism
- Sustainable public procurement
- Sustainable lifestyles and education
- Sustainable buildings and construction
- Consumer information

Building upon Marrakech Process Task Force

Co-lead by UNEP, KEITI & ICLEI
Sustainable Public Procurement

• It builds upon the Marrakech Process Task Force on SPP (2005-2011) and Sustainable Public Procurement Initiative (SPPI) (2012-2013).

• It gathers **63 participants** and experts on SPP, including UNOPS, UNEP, ICLEI, IISD, OECD, FSC, IGPN, and departments and agencies of 19 governments from all regions (including: Chile, China, Brazil, Denmark, Mauritius, the Netherlands, Sweden, Switzerland, USA).

• **Co-leads:** UNEP as lead and KEITI (Korean Environmental Industry and Technology Institute) and ICLEI as co-leads.

• It aims at improving knowledge on SPP and its effectiveness as a tool to promote SCP, greener economies and sustainable development. Work areas:
  1. vision for SPP and defining purchasing principles,
  2. Monitoring SPP/GPP implementation and assessing impacts,
  3. Addressing barriers to SPP and proposing innovative solutions,
  4. Promoting collaboration with the private sector, and
  5. Cooperating for SPP implementation.
