*Preamble*

**The Contracting Parties,**

Fully aware of the economic and social value of the marine and coastal environment of the Eastern ~~and~~ [and Southern] African region;

*Conscious* of their responsibility to preserve their natural heritage and [biological diversity] for the benefit and enjoyment of present and future generations;

*Recognizing* the special hydrographical and ecological characteristics of the region, which require special care and responsible management.

*Recognizing* further the threat to the marine and coastal environment, its ecological equilibrium, resources and legitimate uses posed by pollution and by the insufficient integration of an environmental dimension into the development process;

*Seeking to ensure* that resource development shall be in harmony with the maintenance of the environmental quality of the region and the evolving principles of rational environmental management, [including, but not limited, to the ecosystem based management, polluter pays and precautionary principles];

*Realizing fully* the need for co-operation amongst themselves and with competent international and regional organizations in order to ensure a coordinated and comprehensive development of the natural resources of the region;

[Taking into account the relevant provisions of the 1982 United Nations Convention on the Law of the Sea, the Convention on Biological Diversity (1992), the United Nations Framework Convention on Climate Change (1992), Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal (1989) Bamako Convention on the Ban of the Import into Africa and the Control of the Transboundary Movement and Management of Hazardous Wastes within Africa (1990) and other relevant international conventions, and the relevant outcomes and decisions of the 1992 United Nations Conference on Environment and Development;]

*Recognizing* the desirability of promoting the wider acceptance and national implementation of existing international environmental agreements;

[Noting the role of non- governmental organizations, civil society and other major groups in the promotion of sound environmental management];

[Conscious of the need to adopt integrated policies and practices of sustainable coastal zone management to improve the quality of life of our people;]

*Noting* , however, that existing international conventions concerning the marine and coastal environment do not cover, in spite of the progress achieved, all

aspects and sources of marine pollution and environmental degradation and do not entirely meet the special requirements of the Eastern [\[and Southern\]](#) African region;

*Desirous* to adopt a regional convention elaborated within the framework of the Action Plan for the Protection Management and Development of the Marine and Coastal Environment of the Eastern African Region adopted at Nairobi on 21 June 1985 [and](#):-

[\[Convinced that the purposes of this Convention would be better achieved by amending the Original Convention for the Protection, Management and Development of the Marine and Coastal Environment of the Eastern \[\\[and Southern\\]\]\(#\) \(1985\).\]](#)
