...Fish killed by water pollution in Lago Rodrigo de Freitas, Rio de Janeiro...

Integrated Water Resources Management is a central component of the UNEP water policy and strategy, which promotes ecosystems-based approaches that contribute to sound economic and social development, including poverty reduction and addressing risks from natural and anthropogenic disasters. The Bali Strategic Plan guides the policy's implementation.

...Director of Regional Cooperation Cristina Boelcke with Carlos Loret de Mola, Peruvian Minister of Environment, in Peru...

In Latin America and the Caribbean, UNEP provides the secretariat for the Forum of Ministers of the Environment, whose Latin American and Caribbean Initiative for Sustainable Development (ILAC) provides the basis for environmental cooperation in the region. UNEP is helping to fulfill ILAC commitments in the priority areas of climate change, biodiversity, water and sanitation.
