

Join the Climate Neutral Network – CN Net.

Respond to climate change.

Seize the opportunity.

CN NET – CLIMATE NEUTRAL NETWORK

www.unep.org/climateneutral

The CN Net is an initiative by the United Nations Environment Programme (UNEP), which itself is becoming climate neutral in 2008. Register online to join. Share information and ideas with participants from all around the world.

JOIN NOW

www.unep.org/climateneutral

The CN Net welcomes all credible pledges to significantly reduce greenhouse gas emissions over a range of topic areas. Agrifood • Building and construction • Energy • Forestry • Information and communication technologies • Textiles and clothing • Tourism • Transport • Waste

THE TOPICS

www.unep.org/climateneutral

Governments: promoting renewables, energy efficiency, carbon taxes, offsetting, forest conservation. Cities: strategies include clean transport, carbon neutral buildings and awareness raising. Businesses and other organizations: reducing energy consumption and emissions.

THE PARTICIPANTS

www.unep.org/climateneutral

The CN Net helps participants to achieve cuts in greenhouse gas emissions by: helping publicize plans and strategies • providing a forum for planning emissions reductions • promoting green development.

THE NETWORK

www.unep.org/climateneutral

To drastically reduce global greenhouse gas emissions. To facilitate networking and information. To create a climate neutral society.

THE CN NET CHALLENGE

THE ISSUE

The planet is warming. Greenhouse gases are accumulating.

Earth's climate is changing. Human activities are the cause.

www.unep.org/climateneutral

WHAT CAN YOU DO?

Commit to reduce your carbon footprint.

Take action, adopt targets and timelines.

Join the Climate Neutral Network – CN Net.

www.unep.org/climateneutral

WHY JOIN THE CN NET?

CN Net: catalyzing global action towards a low carbon society.

CN Net: networking and promoting best practices for tackling climate change.

www.unep.org/climateneutral

WHO IS IN THE CN NET?

Participants from around the world are joining the CN Net.

Governments, cities and businesses, organizations large and small: working together, sharing knowledge and experience, creating a climate for change.
