## **Annotated provisional agenda**

### **Item 1: Opening of the session**

1. The twenty-fifth session of the Governing Council/Global Ministerial Environment Forum of the United Nations Environment Programme (UNEP) will be opened at 10 a.m. on Monday, 16 February 2009, by the current President of the Council/Forum or, in his absence, by one of the other officers of the Council/Forum at its twenty-fourth session.

### **Item 2: Organization of work**

#### **Item 2 (a): Election of officers**

2. The Governing Council/Global Ministerial Environment Forum elects its officers at the beginning of each regular session, in accordance with rule 18 of its rules of procedure. An explanation of the geographical composition of the Bureau from 1989 to 2009 was distributed to all Governments, accredited international non-governmental organizations and relevant intergovernmental organizations and United Nations agencies together with the notification of the twenty-fifth session dated 20 November 2008.

#### **Item 2 (b): Adoption of the agenda and organization of work**

##### **(a) Organization of work**

3. In keeping with decision 24/15 II, adopted by the Governing Council/Global Ministerial Environment Forum at its twenty-fourth session, and the subsequent decision taken by the Bureau of the Council/Forum at its meeting held on March 2007, the twenty-fifth session will be held over five days, from 16 to 20 February 2009. Informal consultations in regional groups will be held on Sunday, 15 February 2009, the day before the opening of the session.

4. The Council/Forum will adopt its agenda. The provisional agenda for the session (document UNEP/GC.25/1), as approved by the Governing Council/Global Ministerial Environment Forum at its twenty-fourth session, was distributed together with the notification of the present session. The provisional timetable of meetings and events, including the information on pre-session events and social functions, in addition to formal meetings of the Council/Forum may be found in the annex to the present document. The scenario note providing information on the objectives and expectations as regards the outcomes of the session of the Council/Forum may be found in document UNEP/GC.25/INF/1, annex I, while the list of documents may be found in annex II to the same document. Additional information on the Council/Forum is available on the following website: <http://www.unep.org/gc/gc25>. Updated information on all meetings and events may be found in journals that will be issued every day for the duration of the session and also displayed on video screens placed strategically in the conference premises.

5. The Executive Director recommends that the Council/Forum, at its plenary meeting on the morning of Monday, 16 February, should elect its officers and adopt the agenda and organization of work for the session under provisional agenda items 2 (a) and (b), respectively. The Executive Director also recommends that the Council/Forum at the opening plenary meeting should establish sessional committees, including a committee of the whole.

6. During this meeting, the Executive Director will present his policy statement, as set out in document UNEP/GC.25/2.

7. Pursuant to General Assembly resolution 53/242 of 28 July 1999, the Governing Council constitutes an annual ministerial-level global environmental forum to review important and emerging policy issues in the field of the environment. In view of this mandate, the Executive Director recommends that the present session of the Council/Forum should meet in the form of ministerial-level consultations, beginning on the afternoon of Monday, 16 February, with meetings continuing through the afternoon of Thursday, 19 February 2009.

8. The Executive Director also recommends that, at the meeting on the morning of Friday, 20 February, the Council/Forum should consider the report of the President on the outcome of the ministerial-level consultations, the report of the Committee of the Whole and the relevant draft decisions. In

this regard, the attention of the Council/Forum is drawn to the draft decisions prepared by the Committee of Permanent Representatives to UNEP, as set out in document UNEP/GC.25/L.1. These draft decisions are submitted in keeping with the mandate of the Committee of Permanent Representatives to UNEP as stipulated by decision 19/32 of 4 April 1997.

9. In addition, the Executive Director recommends that items 3 (Credentials of representatives); 8 (Other matters); 9 (Adoption of the report); and 10 (Closure of the session) should be considered during the plenary meeting on the afternoon of Friday, 20 February 2009.

10. The proceedings of the Council/Forum, including the plenary, the plenary session of the ministerial-level consultations, and the Committee of the Whole, will be conducted with simultaneous interpretation into the six official languages of the United Nations.

11. In an effort to make the twenty-fifth session of the Council/Forum as climate-neutral and environmentally friendly as possible, various measures are in place. These include offsetting for greenhouse gas emissions caused by participant's travel to and stay in Nairobi for participants sponsored by UNEP, reducing the number of hard copies of all documents, maximum possible use of 100 per cent recycled paper for documentation and making increased use of recyclable materials and goods in the conference venue, in addition to providing relevant information and communications campaigns. With regard to the distribution of pre-session documents, delegations will receive one copy each of all documents, while delegates are encouraged to visit the relevant website and download the documents. Governments wishing to receive additional copies of the documents should so inform the secretariat, which will transmit the requested number of documents, or provide the same at the conference site. Furthermore, a "green guide" will be made available on the UNEP website to provide delegates with information on how to assist in making the event more environmentally friendly. All participants are recommended to consider offsetting for the greenhouse gas emissions caused by their travel to and stay in Nairobi.

**(b) Ministerial-level consultations**

12. The themes of the ministerial consultations for the present session focus on tackling and responding to emerging issues from the past 12 months, under the thought-provoking titles of "Global crises: national chaos?" and "International environmental governance: help or hindrance?" Discussion papers prepared by the Executive Director on these themes will be before the Council/Forum to provide background information and stimulate the discussions by the ministers and the heads of delegations (documents UNEP/GC.25/16 and Add.1).

13. Over the past 12 months the emergence of the global food crisis and an international response that has sought to find ways of achieving world food security in the context of climate change and bioenergy have been witnessed, coming at a time when the world is already grappling with concerns over energy security and the need to diversify energy supply, and heightened concerns over the availability of freshwater to meet growing demands for food and energy.

14. The ministerial consultations will provide the opportunity to look at the challenges of food, energy and water security in a changing climate, through the lens of environmental sustainability, and to review the response required at the country level from within the United Nations, with financing institutions and mechanisms, including the World Bank and the Global Environment Facility, and from multilateral environmental agreements, including the United Nations Framework Convention on Climate Change, the United Nations Convention to Combat Desertification in those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa and the Convention on Biological Diversity.

15. Today, a renewed interest in the international environmental governance debate is being witnessed for a variety of reasons, including heightened concerns over a lack of coherence in the system, and the mounting evidence that environmental degradation is now severely hindering efforts to achieve sustainable development and the Millennium Development Goals, in particular as a result of climate change.

16. The debate has, however, largely focused on an international dialogue that is remote from the real-life challenges that are confronting member States. In tackling threats to food, energy and water security, and in grappling with the impacts of climate change, member States are now dealing with an array of United Nations agencies, financial institutions and mechanisms, multilateral environmental agreements, private sector interests and civil society organizations, and the lack of coherence in the system is increasingly being felt at the country level. The ministerial consultations will provide the space to consider

how the current international environmental governance architecture, including financing mechanisms, either helps or hinders member States in meeting the challenges to achieving sustainable development and the Millennium Development Goals.

17. It is recommended that format of the ministerial consultations should involve a mix of panels, round tables and plenary sessions to provide ministers and heads of delegations with opportunities for substantive debates and more direct interaction. It is envisaged that ministers will be joined by a small number of high-level guests such as heads of United Nations agencies, ministers from other sectors and business and civil society leaders.

18. The Executive Director further recommends that these issues be taken up during the ministerial-level consultations as follows: the afternoon meeting of Monday, 16 February, will serve as a platform upon which informed debate and dialogue can follow based upon a common understanding of the current situation in the subsequent sessions beginning during the morning of Tuesday, 17 February, and continue until and including the afternoon of Thursday, 19 February. A plenary meeting in the late afternoon of Thursday, 19 February, will be a synthesis session that draws upon the outcomes from all the discussions and will review which messages could be sent by ministers responsible for the environment through the President's summary to the United Nations system, Governments, the business community and civil society.

19. The Executive Director recommends that in the afternoon on Wednesday, 18 February, the ministerial meeting be organized by the Government of Denmark, the host of the fifteenth session of the Conference of the Parties to the United Nations Framework Convention on Climate Change, which will take place in 2009.

**(c) Committee of the Whole**

20. The Committee of the Whole is expected to begin its work in the afternoon of Monday, 16 February. The Committee will elect its own officers in accordance with rule 61 of the rules of procedure, with the exception of its Chair. In the past, the Council/Forum has designated one of its vice-presidents as the Chair of the Committee of the Whole.

21. The Executive Director recommends that the Committee of the Whole take up the following items of the provisional agenda: 4 (Policy issues: (a) State of the environment; (c) International environmental governance; (d) Coordination and cooperation within the United Nations system on environmental matters; (e) Coordination and cooperation with major groups; (f) Contribution of the United Nations Environment Programme as an implementing agency of the Global Environment Facility); 5 (Follow-up to and implementation of the outcomes of United Nations summits and major intergovernmental meetings, including the decisions of the Governing Council); 6 (Budget and programme of work for the biennium 2010–2011 and the Environment Fund and other budgetary matters); 7 (Provisional agenda, date and venue of future sessions of the Governing Council/Global Ministerial Environment Forum: (a) Eleventh special session of the Governing Council/Global Ministerial Environment Forum; and (b) Twenty-sixth session of the Governing Council/Global Ministerial Environment Forum); and 8 (Other matters). Substantive topics to be addressed by each of these agenda items are detailed in paragraphs below.

22. It is envisaged that the Committee of the Whole will conclude its work at its afternoon meeting on Thursday, 19 February 2009, with the adoption of its report. The report of the Committee of the Whole will be submitted to the plenary for adoption at the morning meeting on Friday, 20 February 2009.

**(d) Pre-session events**

23. The Council/Forum will be preceded by the following events:

(a) Tenth Global Civil Society Forum, attended by representatives of non-governmental and civil society organizations, on 14 and 15 February 2009. A limited number of Forum representatives will also participate in the intergovernmental deliberations at the Council/Forum;

(b) Meeting of the Network of Women Ministers and Leaders for the Environment, on 15 February 2009, which will discuss the themes under consideration at the twenty-fifth session of the Council/Forum from a gender perspective and identify priority actions that the international community and Governments need to consider.

**(e) Special events, exhibitions and excursion**

24. Two or three special events will be held during the lunch break every day of the session of the Council/Forum on matters of relevance to the deliberations by the Council/Forum. Details of these events, those of social events and relevant parallel events may be found in the journal on a daily basis. Delegates are encouraged to participate in these events.

25. Several environment-focused exhibitions will be going on throughout the session. In addition, a field excursion will be organized to demonstrate the themes of the ministerial consultations in which interested delegates may participate.

**Item 3: Credentials of representatives**

26. In accordance with rule 17 of the rules of procedure, the credentials of representatives at the twenty-fifth session of the Council will be examined by the Bureau, which will report thereon to the Council/Forum. It should be noted that, under rule 16, each member of the Council is to be represented by one accredited representative, who may be accompanied by alternate representatives and advisers.

**Item 4: Policy issues**

**Item 4 (a): State of the environment**

27. Under this agenda item the Council/Forum will have before it the following documentation:

<b>Documentation</b>	
<b>Symbol and title</b>	<b>Annotation</b>
<p><b>UNEP/GC.25/4</b> State of the environment and contribution of the United Nations Environment Programme to addressing substantive environmental challenges: Report by the Executive Director</p>	<p>The document summarizes issues emanating from the activities of UNEP in the area of assessment, monitoring and early warning, and describes the multifaceted environmental challenges that face the United Nations and its Member States. The report also summarizes the services that UNEP is providing to Governments and other stakeholders to build capacity in scientific environmental assessment and information for decision-making.</p> <p>Additional information on this subject may be found in documents UNEP/GC.25/INF/11, 12 and Add.1, 13, and 34.</p>
<p><b>UNEP/GC.25/4/Add.1</b> State of the environment and contribution of the United Nations Environment Programme to addressing substantive environmental challenges: Addendum: Report by the Executive Director: Overview of the international environmental assessment landscape and options for a future global assessment on environmental change</p>	<p>The document provides a comprehensive overview of the international assessment landscape and options for a future global assessment on environmental change, as requested by decision SS.X/5 of 22 February 2008, paragraph 7 (a). Furthermore, in response to paragraph 7 (b) of the same decision, it presents options for the possible development of a scientifically credible and policy-relevant global assessment of environmental change and its implication for development, including a cost analysis and an indicative benefit analysis for each option.</p> <p>Additional information on this subject may be found in documents UNEP/GC.25/INF/11, 12 and Add.1, 13 and 34.</p>
<p><b>UNEP/GC.25/INF/2</b> UNEP Year Book 2009: Note by the Executive Director</p>	<p>The annual yearbook series presents selected new scientific findings and events of 2008 that are likely to shape important environmental issues and trends in the coming year of 2009. The content of the Year Book 2009 relates to the six thematic priorities outlined in the medium-term strategy of UNEP and contains a cross-cutting thematic discussion of cumulative effects of pressing environmental issues and problems, such as climate change and ecosystem stress, which are resulting in the loss of sequestered carbon, causing ecosystem degradation and increasing human vulnerability to more frequent climate-related disasters.</p>
