

PCFV Vehicles Activities

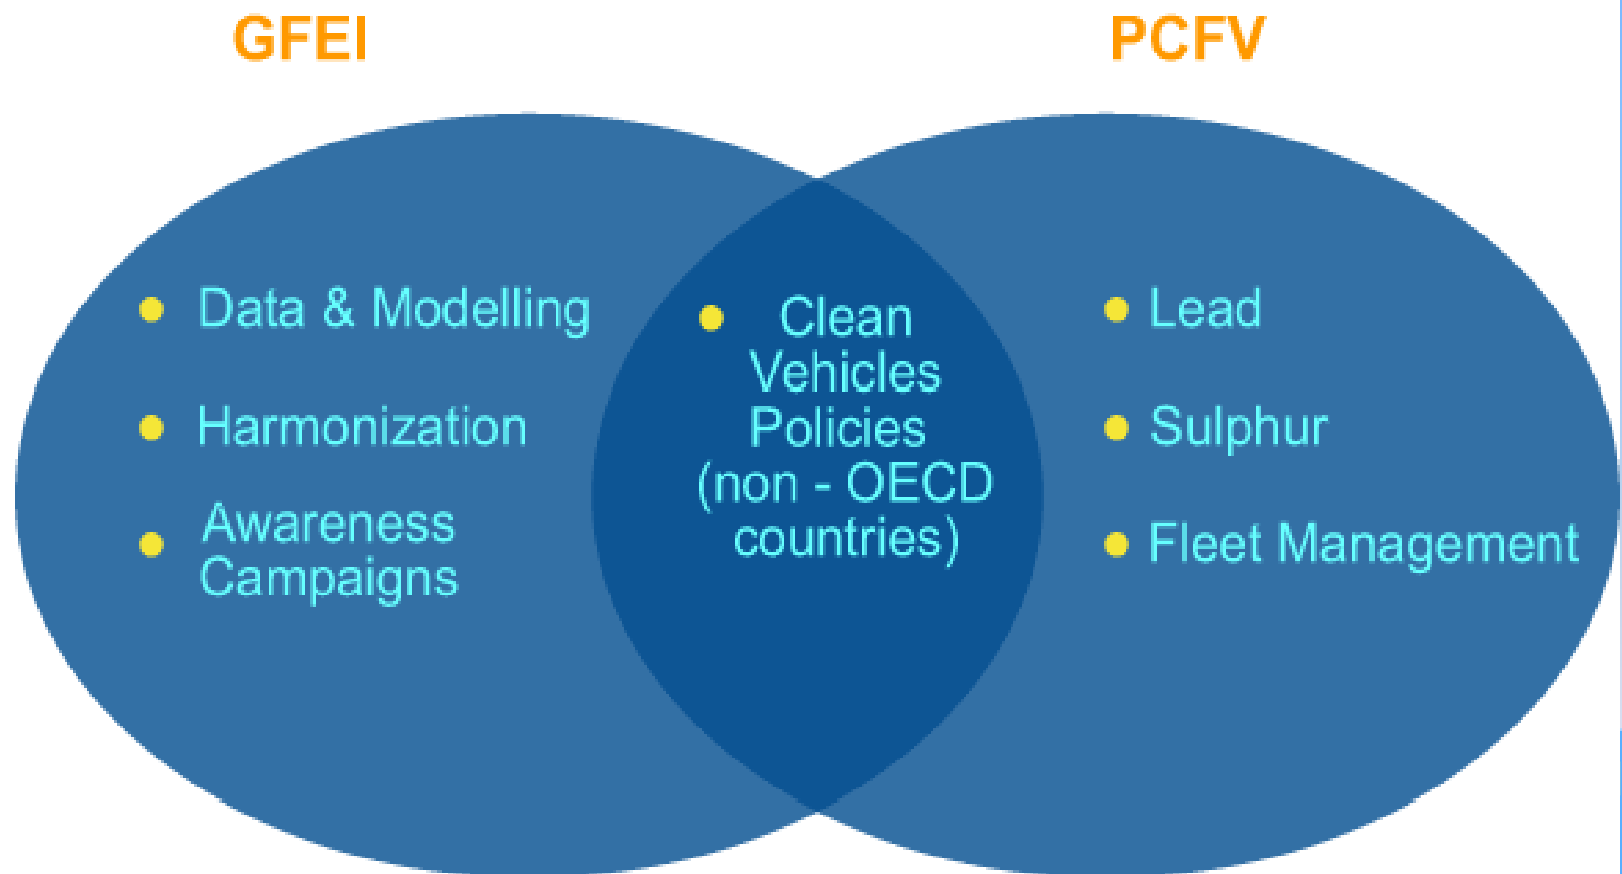

- Recap of last years' discussion:
 - Cleaner petrol and diesel fuels allow introduction cleaner vehicles
 - Follow systems approach to maximise emissions reductions
 - Co-Benefits
 - Link with Black carbon
 - Creation of working group
 - Review existing activities in light of a more comprehensive approach

GFEI

- Cooperation between PCFV and GFEI

- Ongoing vehicles activities:
 - Clean fleet management toolkit and training
 - New publication on retrofit and hybrid vehicles
 - Support to busfleets
 - 2-wheelers
 - National import issues (age restrictions)
 - Promotion of regulation for catalytic converters
 - National projects to support development of clean and efficient vehicles policies (with GFEI)

Proposal for streamlining

PCFV vehicles work two major focus areas:

1- support national policy development for cleaner vehicles

- * including efficient vehicles (GFEI – Climate change)

- * including import restrictions

- * linked to cleaner fuels

- * focus on national level
